

Dremel Glue Gun

The new Dremel Glue Gun offers advanced features that make projects easy!

- The Dremel Glue Gun includes a separate on/off switch to turn off glue gun without unplugging.
- Dual-temperature settings for use with all glue sticks between .44” and .45” diameter.
- Green and red LED lights indicate “on” and “ready” positions.
- It features an anti-drip tip to reduce glue drips and a silicon safety sleeve over the nozzle to prevent accidental burns.
- One-touch kickstand provides stable placement at the touch of a button.
- Broad base for optimal stability.
- A built-in work light illuminates the work area at hand.
- The soft-grip housing and extended trigger with room for three fingers allow for more control and comfort.
- For purchase in two convenient Dremel Glue Gun Kits
 - Model 1200-01: Includes the Dremel Glue Gun, three nozzles (1 fine, 1 standard and 1 wide), six multipurpose glue sticks, instructions
