

Dremel Home Solutions™ Rechargeable Glue Pen

Fact Sheet

- The Home Solutions™ rechargeable Glue Pen has a fast heat-up time of 15 seconds.
- Uses the commonly found 0.28" (7mm) glue stick size.
- Features a precision nozzle tip making it ideal for detailed gluing. Its nozzle reduces the glue drips that ooze out of most glue guns and get stuck on the table or work surface.
- Its integrated Lithium-Ion battery holds a charge for up to two years in storage making it ready when you need it.
- The Dremel Glue Pen features an automatic safety shut off that shuts the Glue Pen off after ten minutes of inactivity.
- Equipped with a battery light indicator letting you when the tool is ready to be used (green light) and when the tool has low battery (red light).
- The Glue Pen is cordless. Freely move around your crafty space without getting tangled in a cord or being confined to a space due to outlet availability.
- The Home Solutions™ Glue Pen has an ergonomic grip that is pen shaped and great for comfort and control, better than the common pistol grip.
- With its USB fast charger, the Dremel Glue Pen has universal and convenient charging, only needs 1.5 hours for a full charge. Charging station can plug into a wall outlet or USB port.
- The Dremel Glue Pen comes complete with four glue stick refills, power adapter and USB cable.
- Available in February 2021 online at The Home Depot and in March 2021 in-store at The Home Depot for a suggested retail price of \$39.97 in the United States.

Specifications
