Dremel® Micro™ 8050 Fact Sheet

The Dremel® Micro™ 8050 is the most powerful, precise and compact cordless rotary tool the brand has yet to produce. With a highly efficient DC motor powerful enough to cut metal, the Micro 8050 is a versatile tool that can be held between the thumb and forefinger like a pencil. It can do many small scale indoor and outdoor projects and is perfect for extremely detailed work that needs to be done in tight spaces.

Dremel Micro 8050 Product Strengths:

- **Sleek ergonomic design** makes it light and easy to handle for detailed projects and tight spaces
- New LED smart features such as **front-end lighting**, **variable speed** indicator and **fuel gauge** allow for optimal use
- New, compact, lightweight **8V Max Lithium-ion battery** for power in a smaller size, always ready and no memory effects
- **Docking Station** continually charges so the tool is always fully charged and ready to use
- **360° Grip Zone** with soft grip for comfort and control
- **Quick Collet Lock** for fast accessory changes
- Speed indicator to select optimal speed for each application (5,000 – 28,000 RPM)
- Fully compatible with all Dremel rotary tool accessories

Dremel Micro 8050 Applications List:

- Cutting: Cutting metal, screws and nails
- Carving: Wood furniture decoration or artistic creations
- Engraving: Decorative engraving in metals or identifying objects
- Sanding: Restoration, refinishing and preparation for paint or stain
- Grinding: Smoothing metal, deburring and removing rust
- Sharpening: Removing dulled edges on blades and garden tools
- Cleaning: Metal hardware, plumbing fixtures or delicate surfaces
- Polishing: Restoring metal objects to previous condition
