

## Dremel Stylus™

The new Dremel Stylus™ rotary tool offers unparalleled style and technology. Poised for nearly any application – grinding, polishing, sanding or buffing – the Stylus brings precision rotary tool technology to your fingertips. With an innovative contour-grip design, soft-grip surface, Lithium-ion technology and its own docking station, the Stylus was created to fit your hand and your lifestyle!

### Facts:

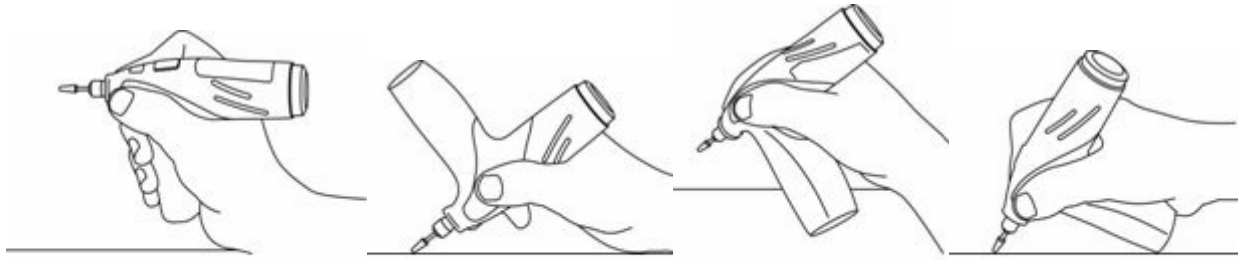

- The Stylus has a contour-grip design with key gripping surfaces for better control and to keep the tool compact and well balanced for superior performance and comfort.
- With its own docking station, the Stylus is always charged and ready for a new project. Its sleek enough to showcase on your kitchen counter or easily kept readily available on your workbench.
- Dremel's integrated 7.2 Volt Lithium-ion battery allows for easy recharging and holds a charge for up to two years, making the Stylus easy to store anywhere from the docking station to a kitchen drawer.
- The tool has an on/off switch that is located at the front of the tool within reach of the index finger for simple one-handed operation.
- A separate speed control dial allows users to save the speed setting every time the Stylus is shut off. With a variable speed range from 5,000 to 25,000 rpm, the Stylus allows for premium functionality with a wide range of materials and applications.
- The Stylus comes with 25 accessories to help users clean, carve, grind, sand and polish.
- **The Dremel Stylus is available at most hardware and home improvement centers nationwide with a suggested retail price of \$69.99.**
