

Modernize Your Measuring with the Dremel® 3 in 1 Digital Laser Measurer

The Dremel Digital Laser Measurer puts the Accuracy of the Laser
Into Your DIY and Craft Measurements

MT. PROSPECT, Ill. – March 22, 2022

To inspire people to tackle home improvement and craft projects around the home, Dremel is introducing the battery-operated 3 in 1 Digital Laser Measurer. Joining the Dremel Flashlight, Electric Screwdriver and Glue Pen, the Digital Laser Measurer is part of a new line of easy-to-use and convenient tools, which are sold at The Home Depot.com and on Amazon.

As its name implies, this device is three tools in one. With the swap of the two included interchangeable heads, the 3 in 1 Digital Laser Measurer can go from measuring distance, to measuring circumference, to measuring curves and uneven surfaces--all with the accuracy of digital technology. When measuring distance, the built-in laser can measure up to 65 feet with plus or minus 1/8-inch accuracy. The tool can hold two measurements at a time, so you don't have to worry about writing down and remembering your calculations when measuring distance or area.

Looking to measure circumference? With the snap of the included adaptor, the laser measurer transforms into a sleek tape measure. Simply pull the tape measure up to five feet and read the circumference on the screen. Uneven surfaces and curved edges giving you a hard time? Snap in the wheel adaptor and you can measure all that and more by simply rolling the tool. Comfortably measure interior walls, windows, furniture, artwork and more.

“Our goal with the 3 in 1 Laser Measurer is to modernize measuring,” said Michael Landt, director, DIY tools. “We take the guess work out of measuring by offering this simple, sleek product to help make measuring a fast and easy process. Its compact size permits one-handed use which makes taking on solo measuring projects especially easy. It’s actually fun to use.”

The Dremel 3 in 1 Digital Laser Measurer comes complete with the laser measurer, tape measure adapter and wheel adapter. Two AAA batteries are also included.

The Dremel 3 in 1 Digital Laser Measurer is available at HomeDepot.com and Amazon and will launch on Lowes.com in May 2022 for a suggested retail price of \$79.97 USD.
