

New Dremel® Electric Scissors Designed to Cut Through Almost Any Material

Cordless 4-volt Multi-purpose Scissors offers a powerful cutting solution and convenient USB charging

MT. PROSPECT, Ill. – May 3, 2022 The Dremel Electric Scissors are sure to inspire DIYers and crafters to take on all their creative and functional needs in and around the home. Slim and powerful, users can easily carry the electric scissors in a tool belt or pocket, and when finished, store it in a kitchen drawer or toolbox.

Dremel Electric Scissors are ideal for everyday home needs and feature a 4V MAX rechargeable lithium-ion battery and USB port for convenient charging. Its compact size and slim design make them ideal for craft projects and everyday cutting applications such as fabrics, food packaging, wrapping paper, vinyl and more. The tool's ultra-sharp shears can cut through almost any type of material with ease and an extra pair of the replaceable shears are included for those who want to designate one pair of shears for separate cutting duties or use as a spare.

"Dremel Electric Scissors are a must-have tool for the home especially for those who have numerous cutting projects they are currently doing by hand," said Mari Trichanh, Dremel product manager. "Once you have experienced Dremel Electric Scissors as a cordless cutting solution to open stubborn pet food bags, frustrating clamshell plastic packaging, or to breakdown cardboard boxes, you'll wonder where they have been all your life."

Dremel Electric Scissors Features at a Glance:

- **Ultra-sharp blades** cut through a variety of thin to thick materials with speed and ease.
- **Battery indicator light** shows the battery life of the tool to take the guesswork out of when it needs to be recharged. A red light indicates low battery approximately <10%, orange approximately <50%, and green light indicates approximately >50% power or more.
- **Integrated Lithium-ion battery** is always ready for use and holds a charge for 18 months while stored.
- **USB rechargeable** Convenient charging system, 2.5hr charge time.
